

Ryan S. Carbonel

FULL STACK DEVELOPER

ryancarbonel1984@gmail.com +63 936 546 4598 [Portfolio](#) github.com/Reffin

Self-taught full stack developer with 2+ years of hands-on experience building and deploying production-ready web applications using React, Node.js, and MongoDB — backed by a Computer Engineering degree and over 15 years of exposure to IT systems, government operations, and infrastructure management. Proven ability to integrate third-party APIs, design scalable backend systems, and ship complete products independently. Fast learner who picks up new tools and technologies quickly, with a strong foundation in both software development and real-world IT support.

EXPERIENCE

Full Stack Developer

2023 - Present

Freelance / Independent Projects

- Built and deployed ShopZone, a full-featured e-commerce platform serving end-to-end shopping flows including product management, cart, checkout, and order tracking.
- Integrated PayMongo payment gateway supporting 5+ payment methods: GCash, Maya, BPI, credit/debit cards, and Cash on Delivery.
- Implemented JWT-based authentication, role-based access control, and Cloudinary image upload pipeline using Multer memory storage.
- Connected Brevo transactional email API to automate order confirmation emails to customers.
- Deployed frontend on Vercel and backend on Railway with environment-based configuration for production stability.

Administrative Aide IV

2009 - Present

Provincial Government of Quirino

- Processed payroll for 1,000+ government employees, computing GSIS, PhilHealth, and Pag-IBIG deductions with zero tolerance for error.
- Built an automated Excel payroll template reducing manual computation time by an estimated 60%.
- Monitored server uptime and network performance, coordinating resolution of infrastructure issues.
- Performed troubleshooting and preventive maintenance on PCs, printers, and peripheral office equipment.
- Maintained confidential employee records in compliance with government data handling standards.

Tools

Git

Postman

Excel

PowerShell

EDUCATION

Saint Mary's University

BS Computer Engineering · 2008
Bayombong, Nueva Vizcaya

LANGUAGES

English — Professional

PROJECTS

ShopZone E-commerce App

React · Node.js · MongoDB · PayMongo · Cloudinary · Brevo

- End-to-end e-commerce platform with admin panel, product ratings gated by delivery status, real-time wishlist badge counts, and full payment integration.
- Independently architected, built, and deployed — frontend on Vercel, backend on Railway, database on MongoDB Atlas.

Filipino — Native

STRENGTHS

- Fast self-learner
- Detail-oriented
- Independent worker
- Remote-ready
